

PediNeb™

Aerosolized Medication Device for Infants. An alternative to aerosol "blow-by"

The PediNeb™ was designed to enhance the delivery of aerosolized medication, while reducing the apprehension encountered by young patients.

PediNeb™ features and benefits:

- **Pacifier.** Calms the infant/toddler during aerosol treatment. Medication is inhaled through the nose, not the mouth.
- **Medication Port.** Directs aerosolized medication to the nose and eliminates medication waste associated with the "blow-by" technique.
- **VixOne small volume nebulizer.** Clinically proven, providing superior medication delivery performance.
- **Easy to operate, clean and efficient.**
- **Developed by a pediatric nurse practitioner.**
- **Latex free.**

The PediNeb™, a new modality in aerosolized medication delivery.

Patent Number 5,904,140
PediNeb™ is a Trademark of Westmed, Inc.
